Technologies for Supporting Cybercrime (Cont)

Dark Web

- **Public Web**

Information that you would normally find on search engines.

- **Deep Web**

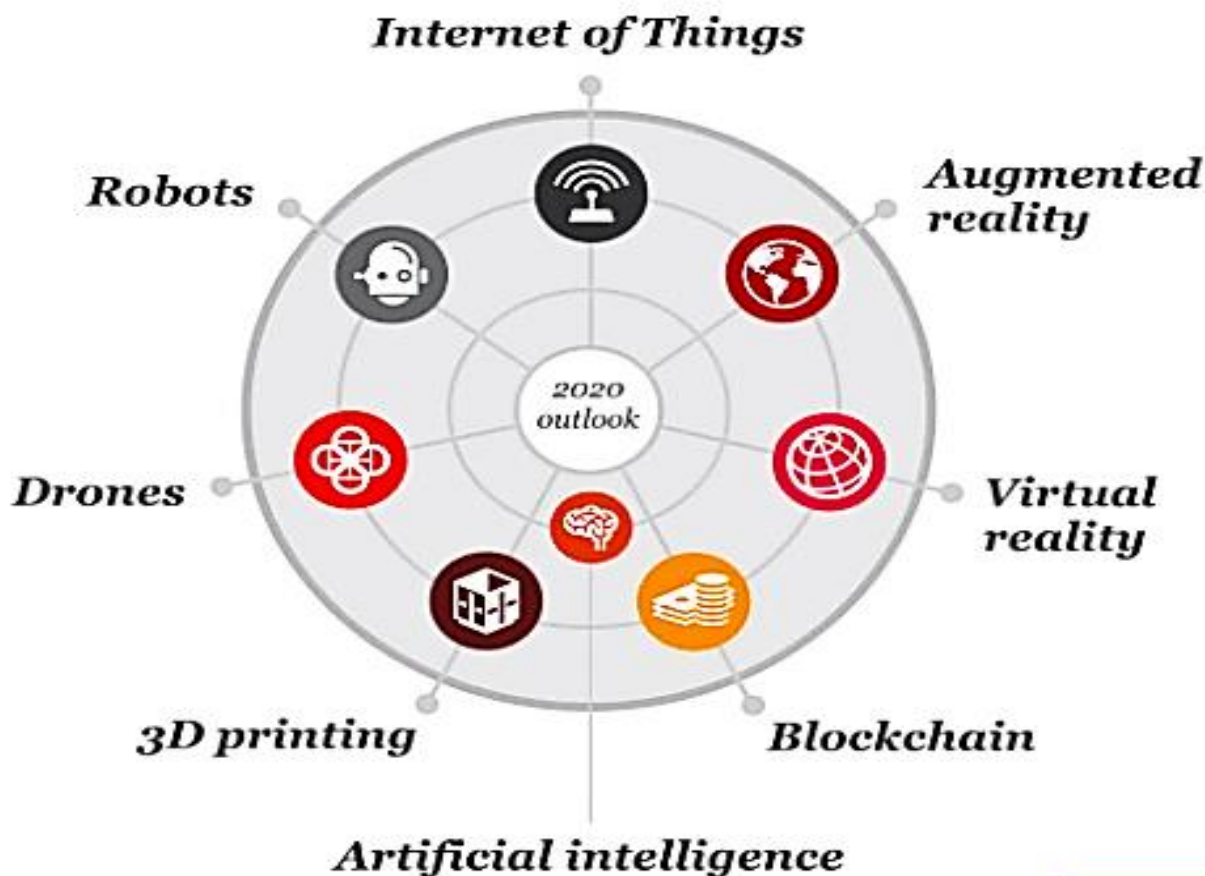

Information that is not indexed by search engines and does not require authentication.

- **Dark Web**

Information that is not accessible by normal internet browsers.

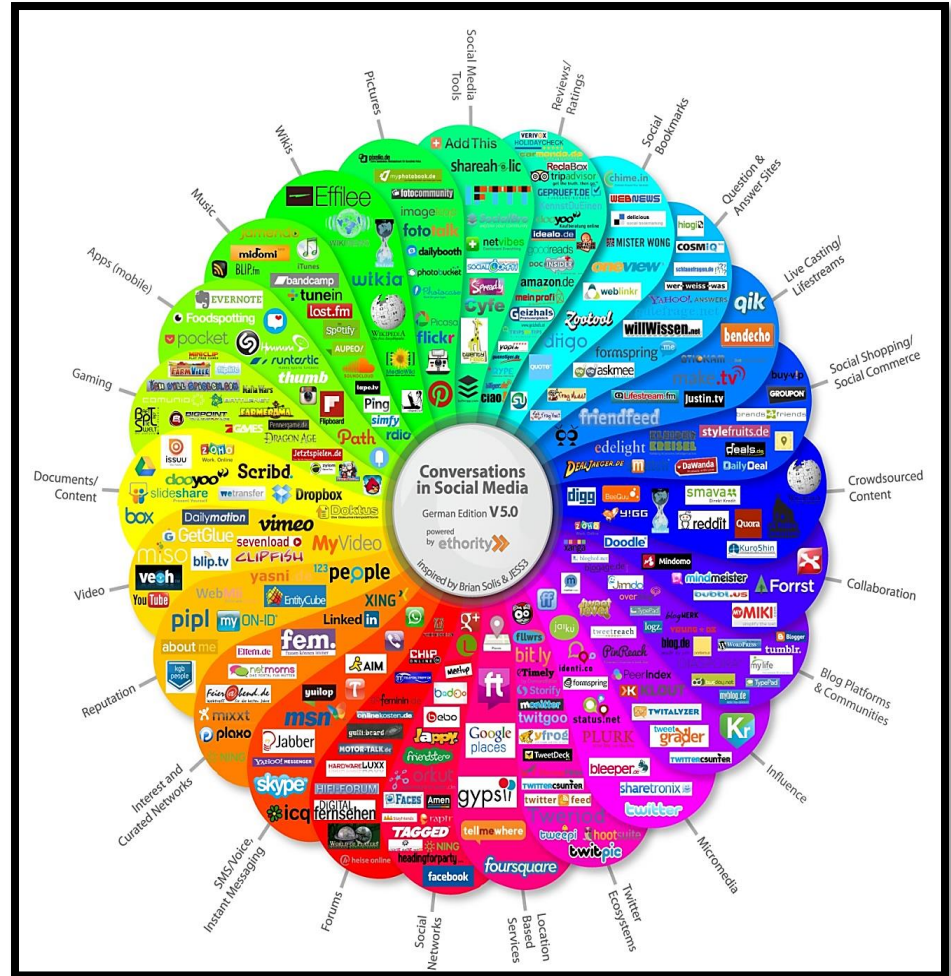

Digital Technologies

Definition of OSINT

Open-source intelligence (OSINT) is a multi-methods (qualitative, quantitative) methodology for collecting, analyzing and making decisions about data accessible in publicly available sources to be used in an intelligence context.

OSINT for Cyber Investigations

- In cyber investigations, **OSINT** plays a critical role in identifying digital identities, tracing infrastructure, verifying online behavior, and building investigative leads
- **OSINT** is a foundational intelligence layer that supports cyber investigations by:
 - Identifying digital identities
 - Mapping online infrastructure
 - Verifying behavioral patterns
 - Discovering relationships between entities
 - Supporting attribution efforts (original sources)

Sources of OSINT

■ Human-centric sources:

- Social media platforms
- Public records
- Online communities

■ Technical sources:

- Domain/IP information
- Metadata
- Digital archives

■ Media sources:

- News and blogs platforms
- Multimedia content

OSINT for Search Engine

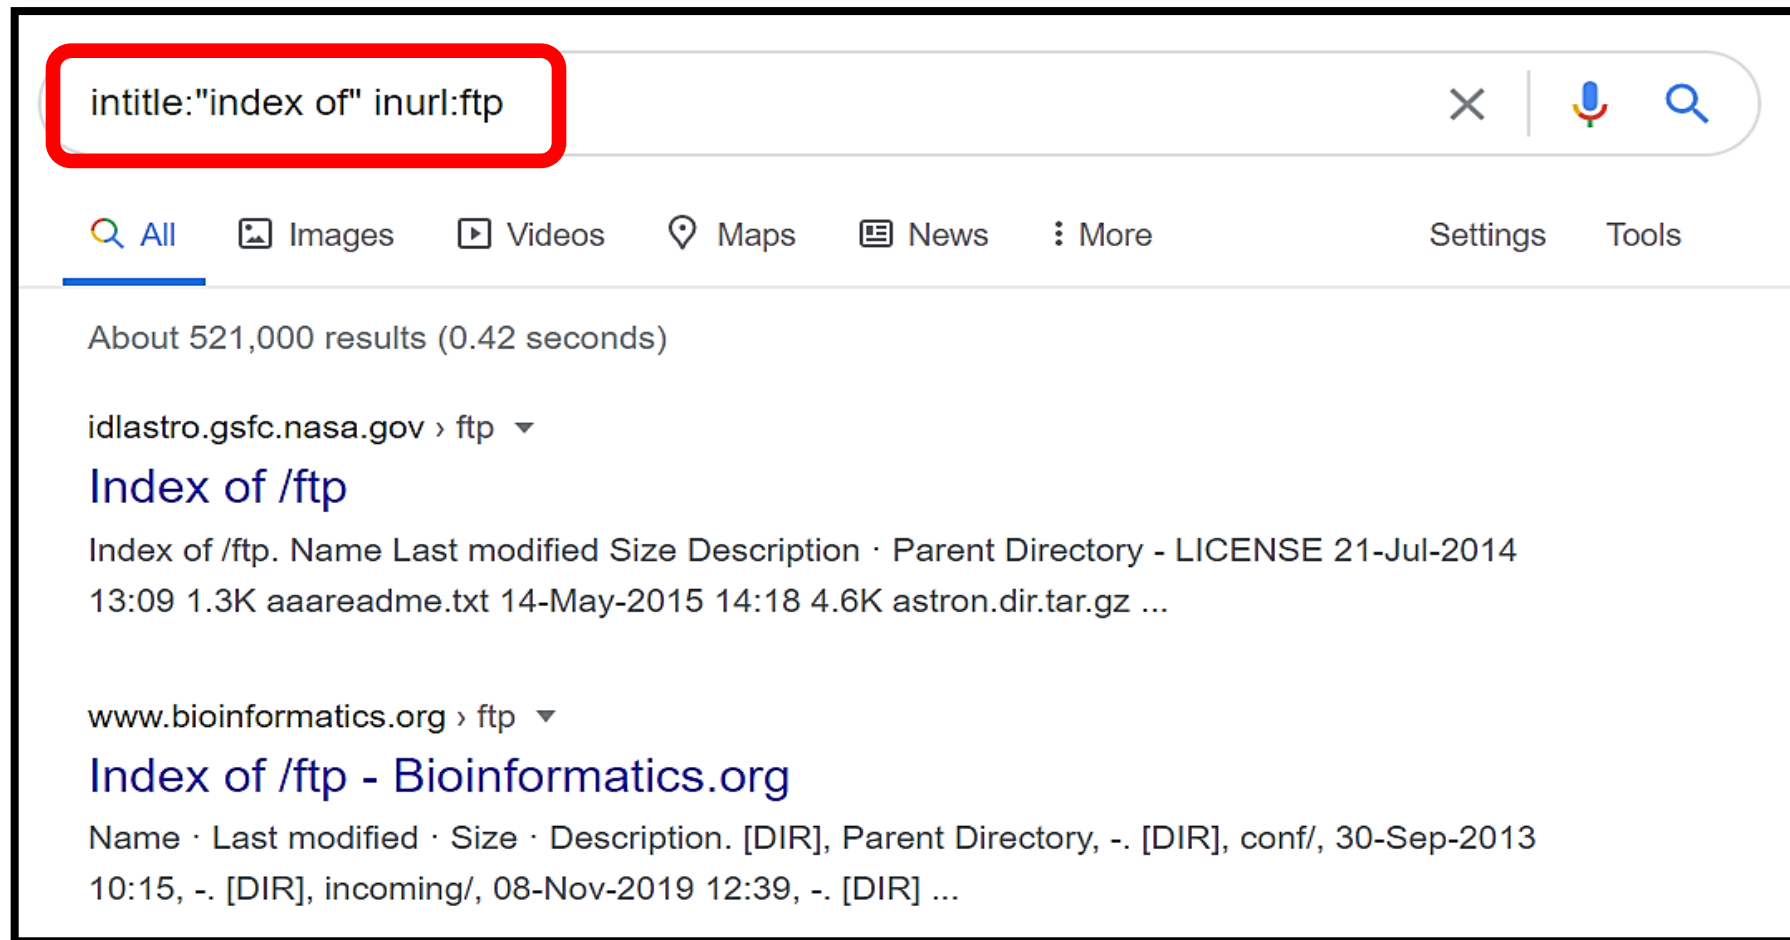

Google : <https://www.google.com/>

OSINT for Search Engine (Cont)

<code>"term"</code>	Match exact word of "term" . Work best for search with space.
<code>-term</code>	Exclude "term" from search result
<code>*</code>	Wildcard . Will match any word or phrase e.g. <code>"*.pdf"</code>
<code>cache:</code>	Returns the most recent cached version of a web page
<code>site:</code>	Return only result from the specified web site
<code>filetype:</code>	Restrict results to those of a certain filetype
<code>intitle:</code>	Find pages with a certain word (or words) in the title
<code>inurl:</code>	Find pages with a certain word (or words) in the URL
<code>intext:</code>	Find pages containing a certain word (or words) in the content

OSINT for Search Engine (Cont)

The screenshot shows a Google search interface. The search bar at the top contains the query `intitle:"index of" inurl:ftp`, which is highlighted with a red rectangular box. To the right of the search bar are icons for clearing the search (an 'X'), voice search (a microphone), and a magnifying glass. Below the search bar is a navigation bar with links for 'All', 'Images', 'Videos', 'Maps', 'News', and 'More'. 'All' is the selected category, indicated by a blue underline. To the right of these links are 'Settings' and 'Tools' links. The search results section shows 'About 521,000 results (0.42 seconds)'. The first result is from `idlastro.gsfc.nasa.gov` with a sub-link to `ftp`. The title of the result is 'Index of /ftp' in blue text. Below the title is a snippet: 'Index of /ftp. Name Last modified Size Description · Parent Directory - LICENSE 21-Jul-2014 13:09 1.3K aaareadme.txt 14-May-2015 14:18 4.6K astron.dir.tar.gz ...'. The second result is from `www.bioinformatics.org` with a sub-link to `ftp`. The title is 'Index of /ftp - Bioinformatics.org' in blue text. The snippet below it reads: 'Name · Last modified · Size · Description. [DIR], Parent Directory, -. [DIR], conf/, 30-Sep-2013 10:15, -. [DIR], incoming/, 08-Nov-2019 12:39, -. [DIR] ...'.

Facebook Search

The screenshot shows a web browser displaying a Facebook search results page. The address bar shows the URL: `facebook.com/profile/1264942997/search/?q=Cybersecurity`. The Facebook navigation bar is visible at the top. On the left sidebar, under 'Search Results', the search query 'Cybersecurity' is entered and highlighted with a red rectangle. Below the search bar, there are filter options: 'Posts You've Seen', 'Most Recent', 'Tagged Location', and 'Date Posted'. The main content area displays a post by 'Wongyos Keardsri' from November 23, 2022. The post text reads: 'Mathematics is one of the main keys for cybersecurity and mathematics will be the basic skill in programming that will be used for cybersecurity learning'. Below the text is a video thumbnail showing a man presenting on a stage with a large screen in the background. The screen displays 'STEAM Education' and lists the components: Science, Technology, Engineering, Arts, and Mathematics. At the bottom of the post, it shows reactions from 'Bank Bank Santivasuta, Wang Noknoi Chalermkwan and 23 others' and buttons for 'Like', 'Comment', and 'Share'.

Google Drive Detail

The screenshot displays a Google Drive interface with a PDF document titled "Chapter01-Introduction to Cybersecurity.pdf" (External) open. The document content includes a header for "Cyber Club of Forensic Science Police Cadet Academy" and a main title "Introduction to Cybersecurity". The author is listed as "Lt.Col.Dr.Wongyos Keardsri (Bank)" with contact information: "Royal Police Cadet Academy | Thailand", "Email: wongyos@rpa.ac.th", "Line ID: wongyos", "Phone/WhatsApp: +6689-599-3490", and "Website: www.rpa.ac.th/wongyos". The document is marked "Copyright © 2026".

Two red boxes highlight key OSINT details:

- Left Red Box (Details Sidebar):** Shows the document's access settings. Under "Who has access", it indicates "Private to you" with a "Manage access" button. Under "Security limitations", it states "No limitations applied" and "If any are applied, they will appear here".
- Right Red Box (Context Menu):** A menu that appears when clicking the document, containing options: "Move", "Add to starred", "Rename", "Details" (highlighted), "Manage comment notifications", and "Open in new tab".

At the bottom of the document viewer, the page number "Page 1 / 143" is visible.

Social Media Investigation

Social Media

Social Media Investigation Overviews

Social Media Investigation is the systematic **collection**, **analysis**, **preservation**, and **interpretation** of information from **social media** platforms to support intelligence gathering, **law enforcement**, corporate **security**, or legal proceedings

Social Media Behaviors

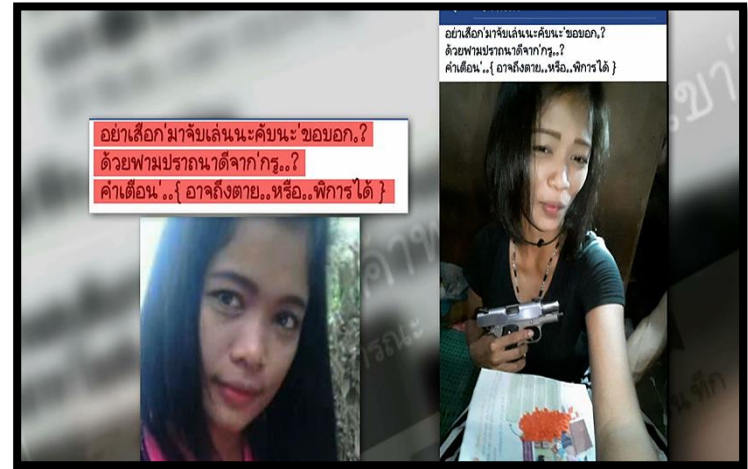

Social Media Behaviors (Cont)

ตั้งใจทำ

ไม่ตั้งใจทำ

Data Collected in Social Media

Data Type	Examples
Profile Data	Name, username, bio, email (if exposed)
Content Data	Posts, comments, images, videos
Metadata	Timestamp, geolocation tags
Social Graph	Friends, followers, connections
Behavioral Data	Posting frequency, interaction style

Social Media Investigation Process

Step 1: Planning

- Define scope and objectives
- Conduct risk assessment
- Review legal and ethical constraints

Step 2: Data Collection

- Manual collection
- OSINT tools
- Lawful access mechanisms

Social Media Investigation Process (Cont)

Step 3: Preservation

- Forensic screenshots
- Hash verification
- Chain of custody documentation

Step 4: Analysis

- Timeline reconstruction
- Link analysis
- Network mapping
- AI-assisted image/video analysis

Social Media Investigation Process (Cont)

Step 5: Reporting

- Analytical summary
- Evidence documentation
- Legal references

Social Media Monitoring (Cont)

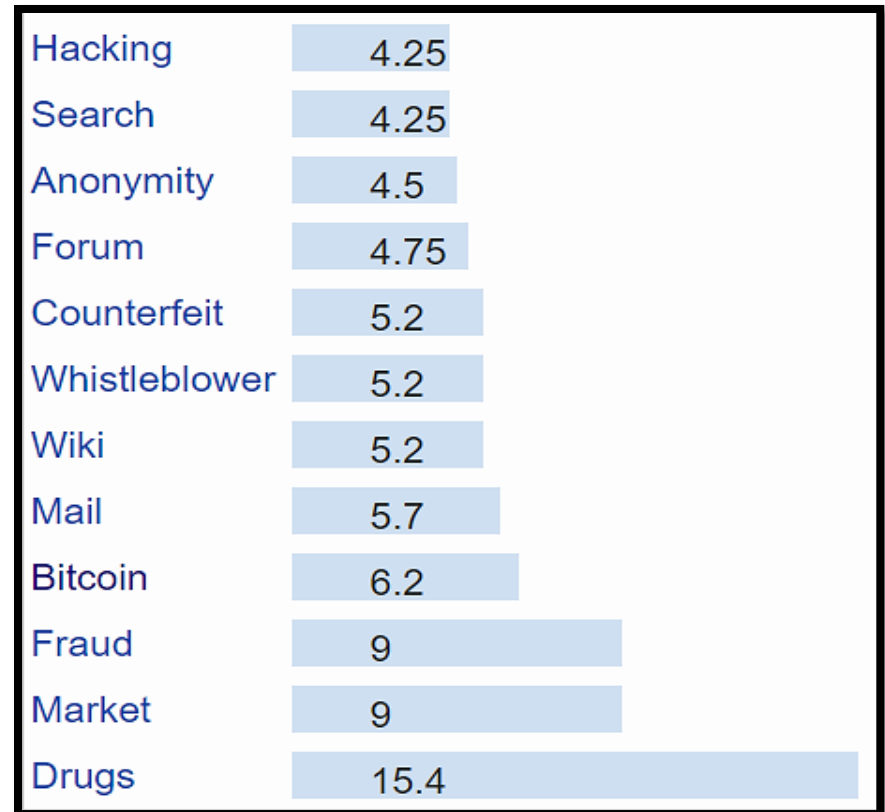

Dark Web Investigation

Types of Web

Darknet Markets

Commercial **darknet markets**, which mediate transactions for **illegal drugs**, with the popularity of **Silk Road** and **Diabolus Market**

Bitcoin services on dark web

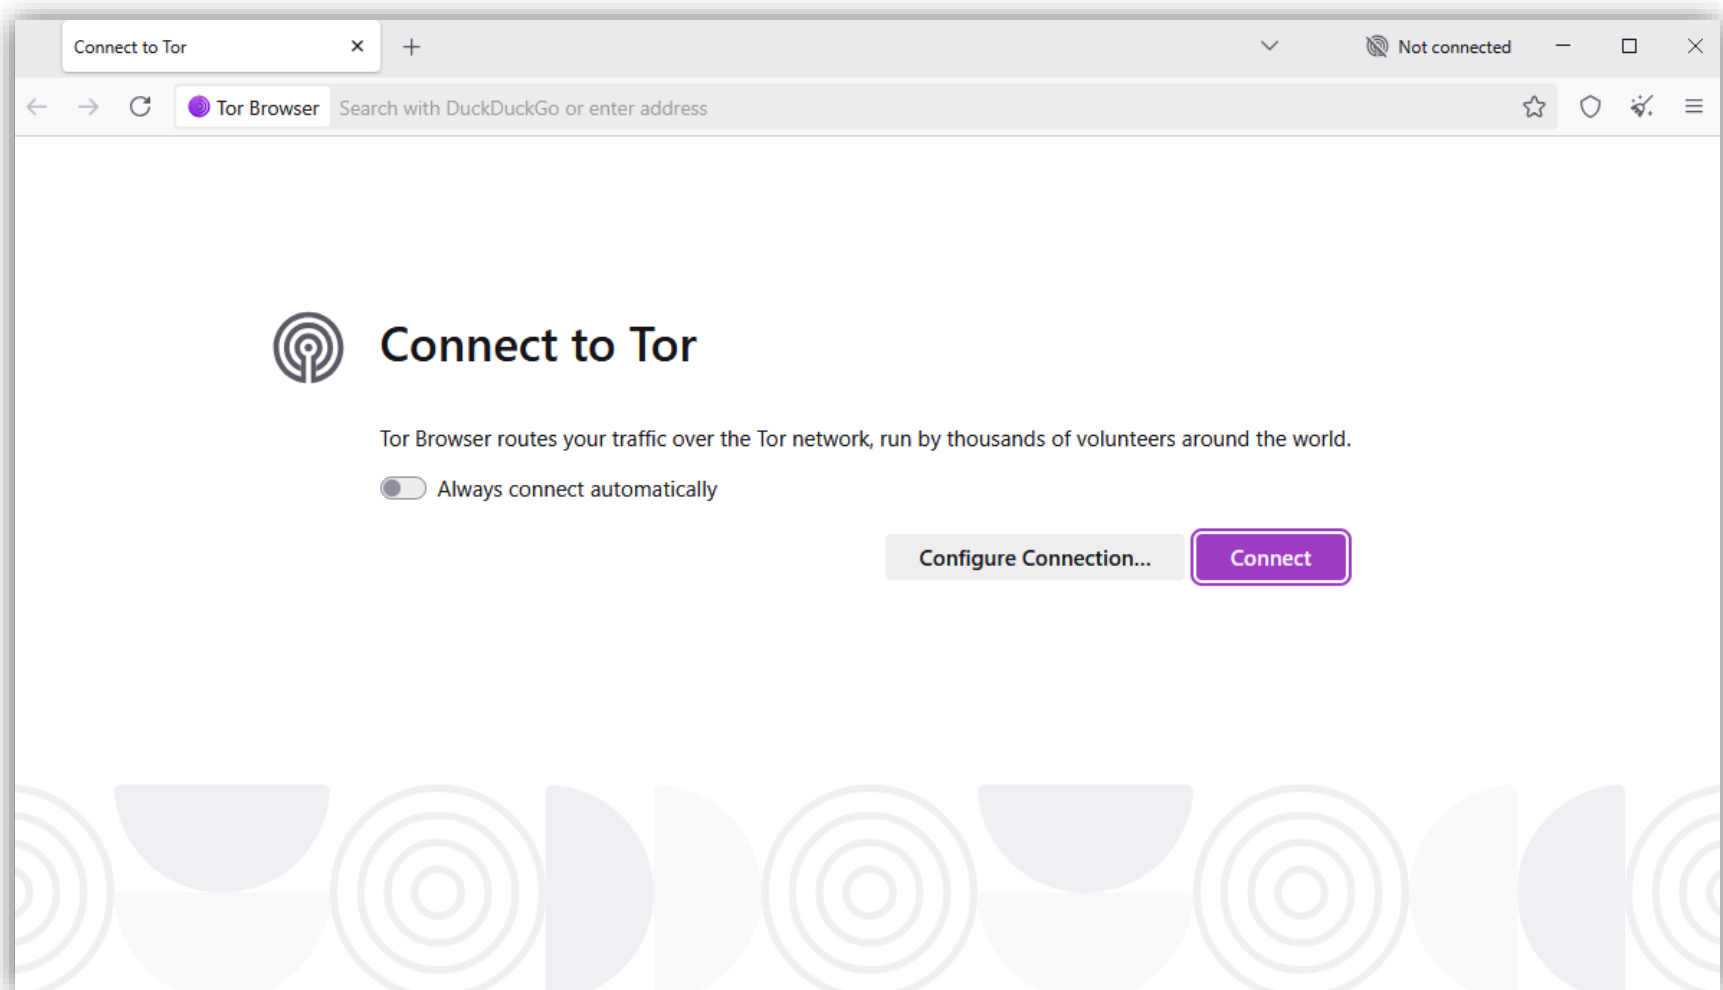

- Bitcoin services such as **tumblers** are often available on **Tor**
- A research study shown that **drugs** and **crime** is **highlighted new trends** in the use of **Bitcoin** for money laundering purposes

Dark Web (Darknet) Browsers

- Tor, “**The Onion Router**”, was developed in the **mid-1990s** by the **U.S. Naval Research Laboratory**, with the purpose of **protecting U.S. intelligence communications online**.
- To visit a **Tor site (.onion)**, the user downloads and installs **Tor software** which presents the user a customizable web browser to access the network.
- Tor may be used to access the **Surface Web**

Cryptocurrencies Search (Cont)

The screenshot shows the Blockstream Explorer interface. At the top, there's a navigation bar with the Blockstream logo and the text "Blockstream Explorer". To the right, there are buttons for "Bitcoin" (highlighted with a yellow border) and "Liquid". A search bar is located below the navigation bar, containing the text "Search for block height, hash, transaction, or address". Below the search bar, there are tabs for "Dashboard", "Blocks", and "Transactions". The "Blocks" tab is selected. The main content area displays a table titled "Latest Blocks" with the following data:

Height	Timestamp	Transactions	Size (KB)	Weight (KWU)
811827	2023-10-12 15:16:32	1476	1303.888	3993.394
